

SO251.01

Name: **Tension clamp**
IMWS 80-95 mm² (without bracket)

Type: SO251.01

GTIN: 6418677418709

Description: For tensioning of LV ABC cables in an insulated messenger wire system (IMWS). Suitable for every climatic conditions.

Package: 25/1350

Unit: PCS

Technical specification

Mechanical

SMFL 15 kN

Dimensions

Weight 0.47 kg
Messenger diameter 15 ... 15.5 mm
Messenger conductor size 80 ... 95 mm²

Features

Includes bracket

Construction:	Component	Material
	Body	Corrosion resistant aluminium alloy
	Wedges and other plastic parts	UV resistant plastic
	Bail	Stainless steel A2

Installation: Wedges are opened and messenger is installed between wedges.
Then wedges are pushed back to tighten them on messenger.
When needed bail can be opened by moving one of end pieces about 10 cm out of the clamp. After installing the bail through bracket must both aluminium pieces on the bail be assembled back inside the groove.

Tools required: No tools required.

Markings: SO 251, 95 mm², PA 1500

Standard: NF C 33-041
