

SO95

Name: **Tension clamp**
 For cable \varnothing 11-19 mm

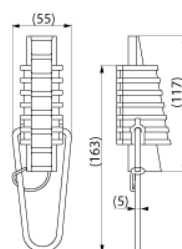

Type: SO95

GTIN: 6418677405174

Description: Used for the tensioning of cables dia. 11-19 mm with round shape. Light weight, no loose parts. The clamp is easy to install, without cutting the cable. The body is made of weather and UV-radiation resistant thermoplastic and the bail of hot-dip galvanized steel.

Package: 50/2700

Unit: PCS

Technical specification

Mechanical

SMFL 0.75 (\varnothing 11 mm), 2.0 (\varnothing 19 mm)

Dimensions

Weight 0.1 kg

Cable diameter 11-19

Use: For dead-ending of cables with round shape.

Construction:	Component	Material
	Body and wedge	Weather and UV-radiation resistant thermoplastic
	Bail	Hot-dip galvanised steel

Installation: The clamp is opened and the messenger wire is inserted between the wedge and the body. The clamp is then closed and strained.

Markings: SO95

Standard: EN50483-3
