SO125

Name: **Wall mount clamp**
 For LV ABC 2-4x(16-120) mm²

Type: SO125

EAN: 6418677404238

Description: Used for the anchoring and suspension of the 2-4-core LV ABC-cables to wooden, stone, brick or concrete walls.

Package: 25/800

Unit: PCS

Technical specification

Mechanical

SMFL 6 kN
 Tightening torque 10 Nm

Dimensions

Weight 0.33 kg
 Conductor diameter 12-44

Features

For conductor size 16-120

Construction:	Component	Material
	Body	Corrosion resistant aluminium alloy
	Plastic protection	Frost, heat and UV-radiation resistant plastic
	Bolts	Hot-dip galvanised steel

Installation: Wall mounted clamp is fitted to the wall. Thanks to the integrated construction no extra parts are needed for the installation. Tightening torque 10 Nm.

Tools required: Articulated spanner ST 20

Markings: SO 125 16-120 mm²

Standard: EN50483
