

SO243

Name: **Tension clamp**
2-4x(6-25) mm²
Type: SO243
EAN: 6418677437977

Description: The SO243 is a tension clamp for four core service connections - made from weather durable and mechanically reliable polymeric plastic. The light weight design of SO243 provides extremely easy and quick anchoring of LV overhead cables - either to poles or walls by means of standard hooks. No tools are required during the installation.

Package: 50/1800
Unit: PCS

Technical specification

Mechanical

SMFL 2 kN

Dimensions

Weight 0.07 kg
Conductor size 2-4x6-25
Conductor diameter 5.3-9.1

Use: Used for termination of 4 and 2 core overhead service cables to poles or walls by means of standard hooks.

Construction: Component Material

Body Weather and UV resistance plastic.
Wedges Weather and UV resistance plastic.
Bail Weather and UV resistance plastic.

Installation: Clamp conductors inside the body and fasten with wedges

Tools required: No tools required.

Markings: ENSTO, SO243, 4x6-25 mm²

Standard: EN 50483-2:2009
