SO150

Name: **Suspension clamp**
For universal cables dia 30-70 mm

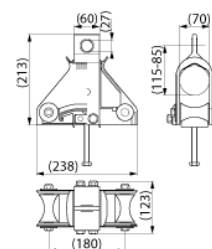

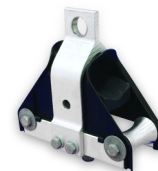

Type: SO150

EAN: 6418677404443

Description: Used in angle and suspension poles. Can also be used as a pulley when installing the cable. When the cable has been tightened to its final length, it is locked to the clamp. The clamp is used at angles max. 30 degrees depending on the bending radius and tightening strength of the cable.

Package: 4/128

Unit: PCS

Technical specification

Electrical values

Nominal voltage (Un) 12 ... 24 kV

Mechanical

Breaking load 30 kN

Tightening torque 25 Nm

Dimensions

Weight 2.2 kg

Cable diameter 30-70

Features

Bolt 1xM12
